

Tiamat: Transaction Chaining Layers for Cardano

November 28, 2024

Abstract

We present the empty PDF because the lead dev is a dum dum who thought "I can write it in a day, I did it before". There are already about 50 pages but they aren't presentable yet. Keep your eyes peeled on X (formerly Twitter) for an announcement. It can only be a matter of days at the utmost, possibly only one. Sorry :/
